## SUCCESSFUL FLIES FOR MILES.

*Wright Cheered by President.**Aviator Soars More Than an Hour With Lieut. Lahm as Passenger.**Beats the Record Made by His Brother by Three Full Minutes.**Modestly Receives Congratulations of Mr. Taft on Flight.**ASSOCIATED PRESS NIGHT REPORT.*  
WASHINGTON, July 27.—The world's aeroplane record for two men, as to both time and distance, was broken this evening in a beautiful flight of one hour, twelve minutes and forty seconds—upward of fifty miles, and at a speed averaging about forty miles an hour, by Orville Wright at Fort Myer, with Lieut. Frank D. Lahm of the Army Signal Corps as a passenger.*The former record was made last year by his brother, Wilbur, joint inventor with him of the machine in which both achievements were performed at Le Mans, France, with Prof. Painavo, of the French Institute, as a passenger.**That flight was one hour, nine minutes and thirty-one seconds. Wilbur was an eager spectator of today's flight.**PRESIDENT CHEERS.**The cheering that heralded the sojourn of the Wrights in the capital of the air was led by President Taft, who was an intensely interested spectator throughout the flight. This success was all-important to the Wrights in that it completed the first of two crucial tests of their machine imposed on them by the United States government—the so-called "endurance test," which required them to remain one hour continuously in the air with one passenger.**Orville did nearly thirteen minutes better than that, and could have kept on indefinitely—three hours and a half, the limit imposed by the gasoline capacity of the supply tank.**The other test, that for speed, will be complied with tomorrow, weather permitting, when Orville is to take Lieut. Benjamin Foulers of the Signal Corps on a cross-country flight to Alexandria, Va., and return.**Orville could have made flights this evening, but it was almost dark when at last he alighted after a flight that would have carried him almost twice across the English Channel.**Polygamy was added to Orville's achievement by the realization that upon his previous attempt to navigate the air with a passenger, Lieut. Selfridge was killed, and he himself was terribly injured.**"BULLY," SAYS SISTER.*  
*His sister, Miss Katherine Wright, intently watched him and when he returned unharmed from his flight she gripped him eagerly and said:**"Bully for you, brother; it was beautiful."**A few minutes later President Taft took him warmly by the hand, saying:**"I congratulate you heartily, sir. It was a great exhibition. You came down as easily and gracefully as you went up. You beat the world's record."**"Yes, sir," replied Orville, evidently embarrassed. "I beat my brother's record."**"How did your passenger conduct himself?" Did he talk to the motor?**"He behaved very well," replied the aviator.**"Well, I congratulate both of you and I thank you for the privilege of witnessing such a flight," added the President.**"Until 6 o'clock the prospect of a night flight appeared very slight. A high wind had prevailed all the afternoon and the apparently adverse conditions undoubtedly kept away many hundreds of people."**KEEPS SAILING ROUND.**Round and round the aeroplane went, seventy-four times about the great drill ground—4000 feet in the circumference, some times in shorter circles. The machine kept nearly sixty feet high, save where some strong currents of air rocked her up or down."**After the seventieth turn, a great shout went up, automobile horns were tooted in a deafening chorus and handclapping and cheers and waving of hats and handkerchiefs told the men in the flying craft that their task was accomplished.**The crowd expected Orville to come down then, but he kept on until he had established the record.**WILBUR ENTHUSIAST.**While his brother was circling around bird-like in the air, Wilbur, standing on the ground, cheered wildly.**The army officers began to cheer. Wilbur, who was losing the world's record to his brother, cheered.**"Watch him on the next turn, he's got me," said Wilbur. "When he comes by let's give him a cheer."**Wilbur was held until the machine was almost overhauled, then he stood ahead of it waving his hat and dancing gaily. It was the first sign of enthusiasm Wilbur had ever shown at Fort Myer.**The crowd was yelling hysterically and up at the President's tent, Gen. Edwards forgot the President and**(Continued on Second Page)*

OPTIMISTIC  
PLAN ATTACK  
ON CONGRESS.

Monster Demonstration by Suffragettes.

Niece of Susan B. Anthony Outlines Scheme.

Declares Women Will Elect Next President.

BY DIRECT WIRE TO THE TIMES.]

CHICAGO, July 27.—[Exclusive Dispatch]—Country-wide demonstration in favor of women's suffrage when the election for equal voting power is presented to Congress next winter was proposed today by Miss Lucy Anthony of Philadelphia. Miss Anthony has been active in the suffragist movement both in this country and in Europe. She is secretary of Dr. Anna Shaw of Philadelphia and a niece of Susan B. Anthony, whom she lived with and assisted. Miss Anthony is the guest of Mrs. Emily Gross.

"An over the country will be felt the strength of equal suffrage sentiment this winter," said Miss Anthony. "We intend at that time to present a great petition to Congress. More than one million names of those who see the necessity of the bill will be on it. The petition itself will not make much of an impression on the Congressmen, but the demonstration will be a wonderful means of education."

"I plan to bring thousands of women from all parts of the country to the Capitol. There we will have a procession through Washington Park. Simultaneously, in the large cities of the rest of the United States mass meetings and parades will be called. All will be orderly though. A sort of suffragette parade on suffrage day."

And then Miss Anthony laughed as she explained the fine difference between the two titles. It seems a suffragette is a militant suffragist and a suffragist is a more passive suffragette. Miss Anthony, whose work for the cause occasions many trips abroad, took part in the parade of 15,000 women in London last summer.

"The first of our organizations, the English women are suffragettes and reminded Miss Anthony of the stirring times there."

And so noble and yet so pitiful. There was 15,000 women from all parts of England forced to adopt Kindergarten tactics to impress the fact that England wanted suffrage for women. Of course, the meetings are now too circus-like in their attempts to further the cause, and their character is not as sincere as formerly.

"America has had none of this though I am sure it is still in progress. Chicago is the most advanced city in the country. Chicago women are absolutely free from it. They are conservative and yet get what they want quickly. When the presidential election comes I believe women will insist in electing the man to office. And by that time every other nation in the world will have women the right to vote. Then the country will be the last to give up."

"My dear Aunt Susan was a suffragette, and I can see her now if alive asking concerning the suffragettes who are so noisy and who are in fits and encounters with the police. She would lean back in her chair and smile and say, 'Go on, my children, go on. Each in his way, the way that is right to him, is right and will bring the rest of his desires.' Dear old Aunt Susan, how she would rejoice now to see the progress we are making."

## TO LIVEN UP CAMPAIGN.

Mrs. Pankhurst, Militant Suffragette, Will Aid New York Women While Out of Jail.

BY DIRECT WIRE TO THE TIMES.]

NEW YORK, July 27.—[Exclusive Dispatch]—Mrs. Emmeline Pankhurst, the leading spirit among the militant suffragettes of England is coming to America to put a little giner into the "Votes for Women" campaign on this side.

It has been suspected for some weeks that the forthcoming campaign is going to be the worst ever held in America, but now that the renowned English woman is to aid there can be no doubt of it.

Mrs. Pankhurst's coming is announced by Mrs. Harriet Stanton Blatch of the Equal Suffrage Society and League for Self Supporting Women. Under the latter's auspices, Mrs. Pankhurst will open her campaign in New York with a speech from Carnegie Hall at a reception given in her honor. She will also do some work outside of New York.

The famous British actress does not expect to remain in this country long because there is little matter to go to jail in England that must be attended to. She is involved in a suit regarding her right to petition in person to the government.

Mrs. Pankhurst, a small, quiet woman, fifty years old but as youthful looking as her daughters, has a remarkable personality. In her suite of thirteen offices in London she keeps which with the suffragettes meet in every part of the world. She and her daughters are leaders of the political end of the suffrage agitation and can make meetings, window smashing and picketing for street parades and train stops.

Mrs. Pankhurst is regarded by the House of Parliament as a veritable "terror." She is widow of the late Dr. Pankhurst of Manchester. She was educated in Paris and Paris is a total abstainer. Already there is much speculation in New York over the effect of her visit on Mrs. Blatch's views. She is a quiet, mild friend. Mrs. Mackay is conservative and has been working all the year with Mrs. Blatch and what part she will take in the demonstrations for the radical English woman remains to be seen.

England is uncertain whether or not Mrs. Blatch will take an active part in the proceedings.

## VOTES FOR WOMEN.

COLLEGE KIDS FIGHT.

BY DIRECT WIRE TO THE TIMES.]

NEW YORK, July 27.—The fight for woman suffrage, backed by the Equal Franchise Society, of which Mrs. Clarence H. Mackay is president, has been taken up at Columbia University, where 200 summer students are now attending classes.

A majority of these students are women teachers. In the first of a series of lectures, Dr. John Dewey, professor of philosophy, spoke on "The Educational Aspects of Equal Suffrage."

That the educational situation of the country would be greatly improved if women were enfranchised was one of the arguments advanced by Dr. John Dewey. He deplored the fact that the cause of the tendency of public officials to keep down the salaries of women teachers, the public fails to place a true value upon the work of women educators.

Then the machine descended along the ground in a cloud of dust and stopped almost upon the identical spot of last Saturday's fall. This time there was no fall, the airplane was unmarred, and the two men stepped out unharmed and triumphant.

"I was nervous at first," said Orville. "You know this was my first attempt with a passenger since last year. Generally, the machine found its own level and I felt as if I had been swung in a circle, string with no problem as direction or elevation or speed to solve."

"I could have been lost at first, but the terrible racket of the motor soon deadened my ears and we abandoned all attempts at conversation or elevation or speed to solve."

"Fourteen minutes after 6 o'clock an Wright was descended heading straight to the ground. The rapidity of its flight was evident by its quickness with which it grew larger and assumed bird-like outlines."

Suddenly it began to slacken speed, then to rise, then to glide toward the surface of the water. It fluttered a few times and then fell.

## HIDES AND OIL TO ENTER FREE.

**House Wins Tariff Fight by Yielding Points.**

**Senate Fixes Rates for Lumber, Coal and Iron Ore.**

**Conferees Reach Agreement on Disputed Rates.**

[ASSOCIATED PRESS NIGHT REPORT.]

**WASHINGTON, July 27.—From the information obtainable tonight, it appears that the House has its battle for free hides and oil, and increased rates on gloves and leather in return for a surrender to the Senate on lumber, coal, iron ore and print paper.**

The rates on these schedules, as tentatively arranged, pending the acceptance by both houses of the programs for a reduction in the duties on manufacturers of leather below the rates fixed by the House, follow:

Hides—Free.  
Coal—6 cents a ton.  
Print paper—\$1.50 a ton.

Iron ore—15 cents a ton.  
Lumber—Rough, \$1.50; one side finished, \$2; two sides finished, \$2.25; three sides finished, which may include tonguing and grooving, \$2.62½.

Gloves—A dozen pairs not exceeding fourteen inches in length, which is the standard length. On gloves exceeding fourteen inches, 35 cents a pair. The rate on leather goods, which does not apply to the Schmachers or cheap gloves, on which the Senate rate of \$1.50 a dozen pairs is retained.

The latter rate, but the House rate accepted on the higher grades of gloves, represent heavy increases over existing duties.

Hoistery—Values at \$1 or less a dozen pairs will remain as in the Senate and existing rates of 40 cents.

Although new oaths of secrecy were taken by every member of the Conference Committee before the session adjourned, it is understood the following rates represent the understanding reached on all the subjects that escaped executive attention.

**SENATE'S CHIEF VICTORY.**

The Senate's chief victory was the retention of its duties on lumber. These represent reductions from Dingell's earlier bill, but are not as low as the house rates, which are made with rough lumber.

Likewise a victory was won by the Senate through the acceptance by the Conference Committee of a rate of \$1.50 a ton on print paper, instead of the \$1.25 rate fixed by the House.

The placing of oil on the free list was a strong concession because of the strong opposition by the friends of Congress to a tariff on this article.

There seems no doubt that the House leaders will be able to put through a bill committing the conferees to make reductions in the rates on leather manufacturers.

If there is any danger of the provisions failing, it is in the Senate. The conferees talked with a number of the western Senate men and some still oppose free hides under any circumstances. It is generally understood, however, that the western leaders will be able to put through a bill committing the conferees to make reductions in the rates on leather manufacturers.

It was announced tonight that the conferees had not succeeded in lowering the duty on leather. The House bill included pig and hair lead in the same class as lead ore, but Senator Smart procured a new classification, under which the rate on the article would not be less than 2 cents. The 2-cent rate has been accepted by the conferees.

**MONTGOMERY (Ala.) July 27.—In his message to the Legislature, which met today, Gov. James B. Connor advised smoking prohibition constitutional, because, he said, the members who passed the present law no doubt intended a revolution in the relation of the State to liquor and had in mind fixing it so the State would never again have saloons or liquor licenses. Necessity for further statutory prohibition acts are found, the Governor thinks, in the fact that in many sections the law has been disregarded. [ASSOCIATED PRESS DAY REPORT.]

**C**HICAGO, July 27.—A special cable from Bogota to the Tribune says:

President Rafael Reyes of Colombia cabled to Bogota today resigning the Presidency of that republic.

Gen. Reyes, discussing the Colombian situation, said the majority in the new Congress, which assembled in July 26, clearly is opposed to a ratification of the tri-partite treaty between Colombia, the United States and Peru.

Therefore, he said, it would be useless for him to retain office when the country did not share his views.

His laconic message to the President of the Colombian Senate said:

"I resign in view of all future claims to the Presidency."

Gen. Reyes will remain in Europe indefinitely. He will send a manifesto to the Colombian people in a few days.

He held the same opinions as himself, soon would be compelled to retire for similar reasons, he said.

Gen. Reyes added that he regarded

**NEW YORK, July 27.—**Rafael Palhaber, the 17-year-old lad who has caused considerable excitement at socialist and suffragette meetings recently by his impassioned speeches, has been committed to Bellevue Hospital to have his mental condition observed.

In the last few weeks he had become so enthusiastic over socialist doctrines that he was in the habit of collecting crowds about him at all hours of the day and night until the neighbors complained and had him removed from his home.

Palhaber, who is the son of a prominent New York lawyer, was brought to court and examined by Dr. Frank Farthing, who was standing by a block of ice. Farthing had him arrested.

**CHICAGO, July 27.—**The trial of Police Inspector Edward McCann on charges of accepting bribes for the "protection" of certain illegal establishments, which was set for hearing before Judge McGuire today, was adjourned until September 7.

The postponement was made on motion of attorneys for the defense, who told the court they had not had sufficient time to prepare their case.

After the court had allowed a continuance, trial Inspector McCann pleaded not guilty to the ten charges of accepting bribes and of malfeasance in office. The case of Jeremiah Griffin, one of Inspector McCann's detectives who is under indictment for bribery in the same connection, also was continued until September 7.

HOW TO TALK TO A CHRISTIAN.

[ASSOCIATED PRESS DAY REPORT.]

**CHICAGO, July 27.—**You can tell a genuine Christian by his attire, manner, Bishop W. A. Quayle told a large audience yesterday at the Methodist camp meeting at Des Plaines. "If you are hanging on a strap in a crowded street car," he said, "and the conductor calls out, 'Step forward, please,' and there is no room in front of you, step forward, the way you act will be a test of your religion. If you are a woman and a man gives you his seat and you act as if you thought it were your right and not his kindness that gave you the seat, the way you act will test you more than answering questions in theology. It is not how you treat your body, but how you treat others that counts."

**MONTGOMERY (Ala.) July 27.—**In his message to the Legislature, which met today, Gov. James B. Connor advised smoking prohibition constitutional, because, he said, the members who passed the present law no doubt intended a revolution in the relation of the State to liquor and had in mind fixing it so the State would never again have saloons or liquor licenses.

Necessity for further statutory prohibition acts are found, the Governor thinks, in the fact that in many sections the law has been disregarded.

He thought it a sad state of affairs when citizens have to organize law and order leagues to enforce the laws that officers are paid to enforce, concluding that when officers of the law

commercialize themselves, anarchy is drawing near.

Whalen Knocked Out of the Box in Sixth.

Zeider's Heavy Base Running Brings in Runs.

IDY DIRECT WIRE TO THE TIMES]

SAN FRANCISCO, July 27.—(Exclusive Dispatch.) A bad beginning spelled a good ending for the Seals this afternoon at Oakland, and, although Ralph Willis was so erratic he was retired after he had given the Senators a lead of three runs, the San Francisco bats never stopped. Jimmy Whalen in the later stages until they turned it into a 6-to-4 victory.

Griffin's work in the box was in a measure responsible for the changed conditions, but the base-running of Hollie Zeider, who once more managed to break into the headlines, in addition to some timely hitting, was chiefly the cause for the rejoicing. Jimmy Williams made four hits in as many times at bat, and the bombardment was so thorough that Jimmy Whalen was forced to quit.

Shinn opened the first inning with a double just inside the third-base line, and Doyle followed with a single to left. Gandal fanned, but Flanagan hit to center for two bases, and there were two runs to the credit of the Capital City boys.

The third run was added in the third inning, when Gandal doubled, was sacrificed by Flanagan, who was safe on an error, and was scored. Flanagan's single to left. Just at that stage of the game, Willis was relieved, Griffin heading the visitors to a single run for the balance of the engagement.

Hollie Zeider, who had worked gradually, Zeider scored first of all in the third on his own two-base hit, and a safe one to right by Mundorff. Melchoir put across a second on a two-base hit by Whalen, a single to center, and a long one to right by Berry.

Zeider proceeded to tie up the score in the fifth on a single, a sacrifice by Mundorff, a double, long fly and Nick Williams' single.

In the sixth Sacramento once more went to the front, but it was a brief respite, for the Seals clinched the game in the sixth.

Jimmy Williams singled and Berry was safe on a bunt, when Jansing threw wild to second. McArchie forced J. Williams, and Griffin scored Berry. Then Zeider and McArchie started the double play. Zeider got out between the bases, but maneuvered so cleverly that McArchie scored when Graham dropped a throw. Mundorff hit to center, putting Zeider around the bases.

Score: SACRAMENTO, 6; SAN FRANCISCO, 5.

[ASSOCIATED PRESS NIGHT REPORT.]

FLORSHIRE (Ill.) July 27.—Warren  
E. Wood of Homewood today won the  
low medal score prize in the thirty-  
six hole qualifying round of the annual  
amateur championship tournament  
of the Western Golf Association.  
His card for two days was 148, which  
sets a new competition record for the  
Homewood course. His work has  
strengthened the opinion that he will  
succeed Mason E. Phelps as western  
champion.

A close second was Elmer M. Byers  
of Allegheny, Pittsburgh, who turned  
in a 77 and totaled 152 for the sixty-  
six holes.

Ned Sawyer of Wheaton duplicated  
his 77 of yesterday, giving him a total  
of 154, which was good for third place.  
Other low scores follow:

Charles Evans, Jr., Elmwood, 78-75-

C. McArthur, Homewood, 82-78-155.

H. W. Lockett, Homewood, 82-81-154.

Walter Fairbanks, Denver, 85-82-167.

John C. Smith, of the University, whose  
round occupied the entire day, and to-  
morrow the first and second rounds of  
match play of eighteen holes each  
will be decided.

The Minneapolis Club of Minneapolis  
is making a decided bid for the next  
tournament. The Detroit Golf Club  
also is a bidder.

CLEVELAND GETS MATCH.

Colored Bantamweight is to Fight  
Jimmy Austin at Naud June  
11th Next Month.

Kid Cleveland, the negro, and Jimmy  
Austin have practically been matched  
to fight ten rounds at Naud Junction,  
for August 18. The boys are to make  
110 pounds, ringside. Cleveland is out  
with a challenge to fight anybody.  
Monte Attell proposed to make  
him 115 pounds and some of the others up to  
122 pounds. Cleveland has been coming along rapidly lately.  
He says he is not quite ready to  
go after Danny Webster, although  
he believes he is good enough to get  
a draw with him.

Kid Dalton is the latest opponent to  
be mentioned for Sam Coulter. The  
boys may be given a chance at Mc-  
Carron's partition about the middle of  
next month.

George Hancock, matchmaker of the  
Pacific Athletic Club, is trying to line  
up a fight program for August 10.  
Cleveland and Austin, Coulter and  
Dalton, and Webster and Kuchos have  
been mentioned as possibilities  
for the show, but as yet nothing definite  
has been done. Dalton is probably  
the one who will be chosen, as he  
is the most popular fighter in the  
next three or four weeks.

Jim Barry has been offered a match  
with Jim Burns at Naud on August  
14. Barry answered that he would  
fight Burns in the oil country if he  
was guaranteed \$100, but said that  
no price had been named. Burns is  
a giant in this city. Barry is still awaiting  
a reply from the manager of the  
Collings club.

Barry is training daily at Eastside,  
and has got down to 107 pounds. His  
left wrist, which was injured in his  
long fight with Kaufman, is as strong  
as ever.

## THE CITY IN BRIEF

ELKS' DAY AT SEATTLE

Fond memories.

## NEWS AND BUSINESS.

## Hundreds-Year Cutting

The hundred-year-old Club will have an outing at Ocean Park tomorrow, leaving at the Hill-street depot on the 9:20 o'clock car.

## Atlanta Club.

An Atlanta (Ga.) Club will be organized Friday evening at the home of Mr. and Mrs. J. W. Howard boulevard. All former residents of Atlanta are invited.

## Aches in Thigh.

After prostrated the home of Attorney E. L. Hutchinson, Monday night, when his little son, Edward, 4 years old, died at the Children's Hospital, he was unable to sit in the thigh bone. Now, silence.

Preparations are being made for a large attendance at the Iowa picnic at Long Beach Saturday. A delegation from Pomona will go by special train. There are special arrangements for the various counties and for the various schools and colleges of that State.

## Chamber of Commerce Excursion.

One hundred and twenty-five of the 150 members of the Chamber of Commerce to the Pacific Coast, the Alaska Yukon Pacific Coast Exposition, starting from this city August 5, have been booked. It is expected that by tomorrow night the last of the remaining twenty-five places will be taken.

## Eleven Dropped, Clerk Injured.

A clerk prostrated the home of Attorney E. L. Hutchinson, Monday night, when his little son, Edward, 4 years old, died at the Children's Hospital, he was unable to sit in the thigh bone.

## Peerless Brew.

Preparations are being made for a large attendance at the Iowa picnic at Long Beach Saturday. A delegation from Pomona will go by special train. There are special arrangements for the various counties and for the various schools and colleges of that State.

## Found With Skull Fractured.

H. Metcalf of No. 115 South Grand avenue was found unconscious by a patrolman on First street between Alameda and Spring yesterday morning, with severe lacerations about the head and a fractured skull. Though his injuries are serious, he will recover. Metcalf had been drinking and the results of his conduct could not ascertain how he was injured.

## Inquest on Collision Victim.

Cornel Hartwell will hold an inquest this afternoon at 2 o'clock at Breen Bros.' over the remains of Fred Kettler of No. 1708 East Vernon avenue, who was killed in the collision of Monrovia and Pasadena cars on the Pacific Coast highway near the Indian village Sunday night. A jury will be impaneled, which will visit the scene of the accident in the morning, and in the afternoon will hear the inquest.

## Man of Iron Nervs.

L. H. Paul, engineer for an ice plant at Cochenille, was treated at the Receiving Hospital until yesterday afternoon for a severely ruptured right hand. Several of the fingers were amputated. Paul explained that on Monday he was showing a Mexican how to run a horse when the Mexican suddenly started the mule and Paul's hand was caught in a cog wheel. No doctor was at hand. He waited for the next train, rode all night into the city, and was shown immediate attention until yesterday morning. And when he was dressed he looked into a mirror, and nonchalantly walked out of the hospital, remarking that he was going to a barber shop to get a shave.

## BREVITIES.

To "Times" Advertisers: Dating from July 1st, classified advertising in the Times will be charged by the word in the daily issue and 1½¢ Sunday. Classified advertising in the issues of several months develop the fact that the average number of words to the line are a fraction over seven. This means for charge, therefore, will prevail after July 1st. The cost of advertising has always been calculated by the word, and this regulation will not change the manner of handling it. The new rate will have been in effect, for many years, though the circulation of the paper, now more than 30,000 daily and 30,000 Sunday, has tripled during this period. Not perhaps the United States can be considered, compared with The Times in "want ad" service. The Times-Mirror Company.

Remember the slogan: "Buy and Best Home Products." For daily references, see page 5, Part II, of The Times, containing list of wide-awake manufacturers under the heading "Trade in Southern California." You will find there are manufacturers of necessities and luxuries here—manufacturers of things to eat and drink—things for the home, the factory, the shop, and the farm. Buy them! Try them! Then buy them again and again, and keep your money at home where it will do you and yours the most good!

# THE PUBLIC SERVICE—In the Courts and Offices.

**SUMMARY OF THE DAY.**  
The Council ignored the Mayor's demand yesterday for the removal of Gen. Sherman and directed President Pease to institute a suit to test the law involved.

The Mayor's first "annual" message urged a new charter, new City Jail and other improvements.

The United Hollywood Water Company filed an injunction suit against the Board of Supervisors yesterday asking that the ordinance fixing water rates be declared void. The action is made returnable before Judge Dromgold next week Friday.

Judge Moss delivered an opinion yesterday quieting the title of the late "Lucky" Baldwin to 18.25 acres in Rancho Los Cienegas. A large acreage might have been involved in the court's decision.

Charles S. Martin, found guilty of complicity in the robbery of the First National Bank of Monrovia, was sentenced to ten years in San Quentin by Judge Davis.

**AT THE CITY HALL.**

## MESSAGE URGES NEW CHARTER.

### MAYOR'S "ANNUAL" EXCITES HEALY IN THE COUNCIL.

City's Executive Advocates Utilization Commission, New City Jail and Fireproof School Buildings—Councilmen Want a New City Hall, Too. Larger Police Force.

An unexpected "annual" message from the Mayor appeared in Council yesterday afternoon. Although not yet four months in office, His Recall Honor surveyed the domain of city business and site of recall politics and committed his conclusions, or such of them as are deemed of political importance, to paper. The charter amendments require a report and message for each year ending June 30.

The Mayor admits "a crisis" brought him into office. He also says he has tried to give "stable, economical and honest administration of the city's business." He also gives warning that his first "annual message and report" is not lengthy, but that there will be others, from time to time.

Speaking of the city's progress, he says:

"The next few years in the history of Los Angeles will be epoch-making. The city probably never again will have to carry out as important enterprises as the Owens River aqueduct and the development of San Pedro harbor in accordance with the plan agreed upon by the Consolidation Committee representing the civic bodies and the representative organizations of San Pedro and Wilmington. While these are stupendous undertakings for a city the size of Los Angeles, still they are fundamental, if not the natural and wonderful growth of our city is to be continued and stimulated, instead of being checked. Los Angeles is a big enough city to attract to it great enterprises to a successful consummation, if the vast sums of public money to be spent are honestly disbursed—if police are kept out of the management of our city's affairs and the efficient administration of the aqueduct and the harbor so far developed is maintained."

"The consolidation with San Pedro and Wilmington, which will, undoubtedly, be affected at the elections in August, is the forerunner of other consolidations with other cities. The time is not far distant when our cherished dream of one great and beautiful city "from the mountains to the sea" will be realized. A consolidated city will be a great asset to Los Angeles is a business proposition that will redound to the mutual advantage of all parts of the proposed new city. But we hardly expect our constituents of coast and valley to join hands with us unless we first demonstrate our capacity for wise and decent administration, free from the taint of graft. Such a conduct of our business, the majority of the citizens of Los Angeles desire and should have."

His list of recommendations, in brief, is:

"A new charter, prepared by a commission appointed by the Council, is needed, but the Council should give assurance to the commission that its labor will not be "vain." The present charter is "patch work," he says.

A Utilities Commission is advocated. It should be made up of fair-minded, experienced men, and its report should be presented to the Council at least a month prior to the date of the annual meeting of rate making. Its advice as to rates should be heeded.

Franchises to haul freight over the traction lines in the city should be granted to the highest bidder, the granting of the spur into the new market at San Pedro and Ninth street; over his veto as opening the question as to whether the traction companies must haul freight without further restriction.

The increase of the police force is advocated.

A new City Jail should be built, the present being inadequate and inconvenient.

School buildings, in his opinion, should all be made fireproof in the future and open-air schools for children in damp, cold, lousy trouble or afflicted with it should be discontinued.

An ordinance preventing oil drippings from automobiles should be passed to preserve the street pavements.

Social clubs should be compelled to pay their license and they should be regulated to destroy those that are bona fide.

Discussing the report before it was half read, Councilman Healy remanded criticism of the Council's action to be termed "dead meat" rebuked from President Pease, who insisted that the Mayor's message ought to be heard with respect. Healy insisted that the Mayor's message was quite accurate. President Pease declared him out of order, and ordered him to take his seat.

Healy sat. But a minute's waiting caused him to leave his seat and approach from the decision of the chair. He said he had a right as a member of the Council to express his opinions of the Mayor, if he chose to. But Pease assured him out of order until the message was read.

In subsequent discussion, Wallace urged the building of a new City Hall, perhaps adding that the new building would be a new site and a new building for the sale of the present site. Or, if that was not possible, to build on the unoccupied portion of the present site, as has been proposed many times. He agreed to do his best to get the present City Hall a "scarecrow." Lyon wanted the City Hall site advertised for sale at once, but agreed to let the Building Committee look into the Mayor's recommendation first. Others held that a

## COUNCIL IGNORES MAYOR IN GEN. SHERMAN CASE.

NO RECALL

"WE SHOULD know quickly if a good man may be put out of office on the flimsy pretext made in the case of Gen. Sherman," said Niles Pease, president of the Council, in advancing the institution of a suit to decide the legal question affecting Gen. Sherman's membership on the Board of Water Commissioners.

The Council was considering Gen. Sherman's case, but at no time was there any disposition to follow the urging of the Mayor and the advice of the City Attorney that he be removed without judicial action. In fact, the mention of the Mayor's course of action of dismissing a man who has given years of able service to the city was not mentioned.

The City Attorney said that if the Council wished to ignore his positive advice that Gen. Sherman is ineligible because of a technicality of the law, it could institute quo warranto suit, institute prosecution in a court of common jurisdiction, and then re-enact for the aqueduct quarters in the Central building, in which Gen. Sherman is a stockholder, and require the building company to sue for a writ of mandamus against the Council, in order to test the question.

The Council was unanimous in demanding a court decision instead of a decree, and the City Attorney agreed to let the Council file a petition for a writ of mandamus against the Council for a construction of the law.

"I have been a director with Gen. Sherman on several corporation boards," said Wallace, "and I always found him an agreeable gentleman to do business with; but he and I are adverse on political questions, and he does not want me giving him in other ways." He positively refused to serve.

Councilman Dromgold then suggested President Pease as the petitioner, it being understood that the City Attorney would appear for him and the petition would be a mere formality to get the legal question before the court.

Pease said he would consider the question until after lunch. Then he said he would file the suit if he had the time settled, and he consented to serve. The City Attorney was accordingly directed to institute the suit at once.

The decision of the Council is practical, said the City Attorney, if it doubts his positive decision that the law does make Gen. Sherman ineligible and for him to take it to a court for approval. To enable him to proceed with his suit, the Council furnished him a plaintiff and a case.

The Hollywood corporation brought an injunction action against the board, established by the defendant, to take effect August 1, 1909, to be declared null and void, and that the plaintiff be declared by the court to be entitled to a fair rate on its investment. The injunction is returnable before Judge Bordwell in Department Nine, Aug. 1.

The petition alleges that prior to November 18, 1908, the West Los Angeles Water Company was engaged in supplying water to the people of a large territory within the county of Los Angeles, L.A., and northern part of the city, that it has established rates and collected for water so furnished, the rates being uniform, with the exception of cases where consumers had written contracts with it.

On November 18, 1908, the city of Hollywood was incorporated and the limits were fixed so as to include the modern type of metal or concrete drinking fountains for animals was sanitary. Dr. Morrison declared it was too much to ask of the recall members, knowing as they do, that the water department has made its brilliant progress during the many years Gen. Sherman has been a member of the board.

The Mayor used the decision to summarily and coarsely seek the removal of Gen. Sherman, and the Council unanimously ignored his positive advice.

## GROUP CITY PRECINCTS FOR CONSOLIDATION ELECTIONS.

SEVENTY-NINE polling places will take the place of the usual 189 at the coming consolidation elections in this city—August 4 and August 12. In the majority of instances the polling places have been located as near as possible to the center of population of the consolidated precincts. August 4 is the date of Los Angeles and Wilmington will vote on the question of consolidation, and eight days later—August 12—the Los Angeles and San Pedro voters will cast their ballots to determine if San Pedro shall consolidate with this city.

Chairman Fleming of the Los Angeles Consolidation Committee is making every effort to get out a large vote in Los Angeles at both elections. There is no open opposition to the measure in this city, and the overwhelming majority of Americans with those who are allied with the corporations opposing consolidation is in favor of consolidation and a great desire to have it now. The question of getting out a rousing vote is an important one. In order to secure the full strength of the vote, the consolidation managers are employing every practical means. Many volunteers have called at the headquarters in the Chamber of Commerce building and offered their services to the precincts, but most workers are needed.

Automobiles are also greatly needed by the committee. So far there has been a generous response of automobile owners to the appeal of the committee, and about \$10,000 has been donated for use on the two election dates. But the committee can easily use 100 or more additional ma-

chines. The official list of polling places has been prepared by the City Clerk thus:

were \$3600, and the profits \$1500, and that he has received but \$332, leaving an account for his interest in the partnership in addition to the amount named in addition.

NON-SUITED. Judge Monroe yesterday non-suited the action brought by Pauline Lundeck, the Mrs. Baldwin and Construction Company to recover \$25,000, alleged to be due by reason of injuries received while in the employ of the defendant. The plaintiff, the president, was concluded and, on motion of the defendants, the case was dismissed.

Rimpau is the owner of a section of land adjoining the Baldwin possession, the former's living the north line of the property in question in the possession of the homeman and his tenants for more than forty years, but, on account of a dispute in the boundary of the property, the division of monies in a long course of years, it was alleged by Rimpau that the plaintiff was the real owner of the real estate in question, which was a bit of land lying close to the boundary between the two ranches.

Judge Moss found that the original government boundary line was fixed in the line upon which the defendant's fence stood.

DESIRE JURIES. In Judge Wilbur's court today, a jury will be called for the purpose of determining the mental poison of John Wood and Joseph Coan. Wood instead of the man, the estate, was arrested to the Goddess of Liberty, while Coan declares that he has a sure cure for all microbes. Under the law the court is compelled to have these cases tried by a jury, at least, and in this case the question is as to what the law of California is involved in the case. The court took the matter under advisement.

MANHATTAN CASE OVER. On motion of Attorney H. H. Appel, Police Justice Frederickson yesterday continued the cases of H. H. Salway, the man who was arrested in the Manhattan Cafe, and two Japanese waiters, until September 23. The continuance was granted because Appel sought that he be held over for two weeks. The Broome trial in the Superior Court Salway and the Japs were arrested on the night of May 5 in a raid made by the police on the Manhattan. They are now on the road to recovery. Mrs. LeRoy's husband is serving a term for forgery in the Ohio State penitentiary.

DESIRES JURIES. In Judge Wilbur's court yesterday, a jury was impaneled in the case of Gus Lundek, who pleaded guilty to entering the home of Leo P. Bergin at No. 1813 South Flower street and stealing a fine stickpin and valuable cigarette case, was sentenced yesterday. Montague, an attorney, will be made to let the man out on probation. He said he took the stuff because he was hungry, which gave the court an opportunity to inquire if he had the cigarette case indigentible.

DESIRE TO ADOPT. Frank Limmerth filed a petition in the Superior Court yesterday for permission to adopt Frederick Bertram Foringer, born in 1902.

PETITIONS FOR ACCOUNTING.

ASKS ACCOUNTING. Leo Zekman thinks he has had the short end run in a commercial transaction. He brought an action against the Berlin Dye Works and Laundry Company, asking judgment for \$1649. He alleged that in the defendant's concern, he was continuing until February 1, 1909; that in that time the receipts

were \$1000.

In San Pedro and Wilmington, where the real fight will center on the days of election, automobiles are also needed and friends of the great movement polls. Every precaution is taken to insure the purity of the ballot, as it is known to the consolidators that many tricks will be attempted by the vigilance of the consolidators.

The real fight will center on the last minute. The managers will not be relaxed for a moment until the last vote is counted at the last election.

There is a Chamber of Commerce building in the center of the city, and we have been prepared for the two elections.

The Wilmington pennant is yellow with black letters, and the San Pedro flag is white with blue letters.

They will be distributed among the garages and houses from automobiles, trucks and other vehicles several days before the election date.

James Kelly's earth-provoking com-

edy, "Mixed and Muddled," is the

most popular comedy of the week.

Hazel Salmon, who is

making Winnie Baldwin's place for

the week, is very clever in the part as-

## EVENTS IN LOCAL SOCIETY.

A n interesting bit of society gossip is the announcement of the wedding Saturday of Miss Velma Clements and Spencer C. Rogers of this city, which was solemnized at the country home of the bride's parents at Riveria. The bride is one of the most charming of the younger set. She was a student at the time when she was a general favorite. Only members of the family were present at the service. The bride looked attractive in a creation of white lace over blue silk. Her bouquet was a shower of Shasta daisies. Mr. and Mrs. Rogers will reside in Los Angeles.

## Visitor Honored.

Delightful in its appointments was the afternoon party presided over yesterday by Mrs. Edith C. Orville Hawley of No. 251 South Spring avenue, who entertained as a courtesy to her

## To Visit Ocean Park.

Mr. and Mrs. M. V. Huff and family of Oxford street will leave soon for Ocean Park where they will spend a month.

## Eastern Visitors.

Mrs. George M. Myers and daughter, Helen, of No. 635 Armitage Boulevard, Kansas City, and Mrs. Margaret Myers, wife of Cincinnati, are visiting their cousins, Mr. and Mrs. Abner L. Ross of No. 109 South Alameda street. The guests will remain until Mr. Ross and family leave for Deer Lodge, Tenn.

## Trip Ended.

A. Bernstein of this city has just returned from a two months' trip through the East.

## For Bride-sheet.

In honor of Miss Pearl Strong, whose marriage to Percival Parker will take place August 5, Miss Mabel Goulding entertained yesterday with a shower at her home on Twenty-fourth street.

The rooms were decorated with garlands of red carnations and gypsophila. The room was concealed in a large heart-shaped box. Present were Mrs. V. N. Strong, Mrs. Harry Strong, Mrs. Harry Matheson, Mrs. James McIntyre, Mrs. Charles Marion, Mrs. Ruth Boyd, Mrs. Alfred Dove, Mrs. Arthur Cardwell, Mrs. Charles McCullough, Mrs. Fawn Morgan, Mrs. George Harkness, Mrs. Freda Riley, Mrs. Edwin Dickinson, Mrs. Freda Parker, Mrs. Mrs. Fletcher W. have been honored by the National Council of the American Legion. The members of the council presented a gold watch to Mrs. C. L. Neik.

## Oxford Grays.

Oxford grays will have a decided run.

## The Mop Head-Dress.

Hairdressing! Oh, me, the word comes from Paris that even more fantastic forms are being put forth than prevailed during the past twelve months. You ever see anything like it? Was there ever anything lovelier than a woman's crown of glory arranged in a madonna fashion, if becoming, or simply tossed up in a soft twist at the crown of her head?

Don't you think it's better to be truthful? Over in Paris some most remarkable gyrations in the hairdressing business have been going on. They have a new mop head-dress or bee-bee effect, which is built up by wire and covered with feathers of white and covered with false hair. Over this structure the natural hair is arranged in the beehive style which an absurd fashion has dictated. Jeweled bands and ribbons are fashionable fetes for the hair also.

## New Fountain Pen.

There was a constant crowd of laughing spectators all day yesterday at the fountain pen department of the department stores, where was illustrated, by means of automatically-moving images, the difference between the old-fashioned fountain pens and the new.

The ink-splattered man who was filling the out-of-date pen presented a sorry appearance. His face, hands, shirtfront and desk were literally dripping with the superfluous ink which with the well-known glass dropper and its rubber attachment, the fountain pen. At his side stood another man, spick and span, who by means of his fountain pen, leaving not an ink trace behind. Alternately the images did their stunts and all day long this Punch and Judy show entertained a

large audience.

In Paris the soft-surfaced suitings are strongly in the lead—the silky diagonal stripes and ribbons. Moires are well in the front and more bows and ribbons than the colors of the rainbow and will be smart. The Ottoman cord is by no means laid on the shelf, but bobs up serenely for recognition in the fall and winter fabrics.

Colors bid to be dark and soft. Black, brown, tan and beige will be much worn with colored accessories. The lovely soft violets, mauves and lavenders that are such summer favorites will be with us next winter, dressed in pastel shades. The blues and greens and copper shades and the rich Bordeaux reds will be well represented on our fall color cards. In tailored street suits, dark slate brown

and black.

## DOWNED TWO DAVIDS.

Miss Teresa Camp halted yesterday in her downward career and registered large enough a gain, 2655 points, to take her up ahead of two such popular young men as the two Davids—Hughes and Boardman. The mighty Goliath could not down one striping youth named David, but lo, and behold, the gentle Miss Camp has vanquished both of them! Three cheers for Teresa! She has moved up to seventeenth place.

If "Teddy" Roosevelt were not so busy bearding the African Lions in their dens and playing water polo with the hippotamis of the upper Nile, he should pause long enough to send Miss Camp a year's subscription to *The Times* to help her win a scholarship, because she belongs to the kind of the strenuous and frank-faced fighters in the contest, though but 14 years old. She is the oldest of a family of nine children. Her father, Thomas W. Camp, is foreman for a patent roofing company and needs a roof of considerable size to protect his wife and interesting household. If all of their children are as good and capable to care for themselves as the eldest sister, Mr. and Mrs. Camp may well be proud of their Rooseveltian family.

Teresa last year succeeded in winning a scholarship in the Fillmore School of Music, where she has made commendable progress as a piano student. She has been hard at work to relieve the over-crowded streets of Los Angeles, which are so blocked with automobiles as to be almost impassable.

To widen the streets by pulling down buildings is not to be thought of. That the streets ought to bear some responsibility for the condition of the city in a given area, who have to use those streets, is surely so self-evident that any schoolboy can see it.

Yet, what do we do? We allow building owners to increase the population five-fold, every time we allow a man to pile five ordinary buildings on one lot—and this is what you do if you fail to limit the height of skyscrapers.

Skyscrapers are a nuisance. They darken the streets, shut out light and air and convert the streets into jungles. All they do is to put money into the pockets of the owners by enabling him to get five times as much rent from one lot as he ought to have.

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES.

## PASADENA. BLAZING ROOF HITS SLEEPER

Falls on Man in Bed; He's Severely Burned.

Narrow Escapes at Fire in the Early Morning.

Playground Commissioner in Race for Wager.

Office of The Times, No. 2<sup>nd</sup> St., Raymond Ave.

PASADENA, July 28.—William S. Kehler was severely burned on the head, shoulders and hands as a result of an early-morning fire on Green street, just west of Fair Oaks, yesterday. Alfred Huston and Mr. and Mrs. Frank Kerley, who were residing in that section, just escaped being burned.

James Smith of Altadena is the principal loser by the blaze, which practically destroyed the buildings at Nos. 6-8-10-12-14 and 16 West Green street. This row of old-fashioned wooden buildings had been on fire several times before.

The total loss is estimated at \$6000.

No insurance was carried.

Alfred Huston was awakened by having a portion of the burning ceiling fall upon his bed. He gave the alarm. Kerley was awakened by shouts just as the roof fell in on him. Blazing boards hit his head and one right pole.

Frank Kerley, proprietor of the People's Pride Laundry, lost practically everything he had invested in the recently-acquired business. He was able to save most of the clothing of his customers, but his machinery and other equipment, valued at \$2500, was destroyed.

SPORTING BLOOD AT PEDRO.

The quarter-mile track at Carmelita Playgrounds offered its first "warming-up" late Monday afternoon, when Commissioner Herman R. Hertel started off in the race in the time 1:14 3-5. The tryout was the result of a wager by Commissioner Schiffman that Hertel could not make the 40 yards in one-and-one-quarter minutes.

Major C. A. Farris, manager of Commissions, Medill was timekeeper, being the proud possessor of a split-second stop watch.

The race was decided in favor of the runner who was held down the stretch. Timinecker Medill called to him that the time was almost up. Schiffman holds that this joint bet was made.

It is highly probable that the race will be run again.

OTONE UNIDENTIFIED.

Prof. Charles Frederick Holder, who recently made a trip to Mexico with Maj. Burnham to take pictures of a prehistoric stone bearing inscriptions that thus far the author is unidentified. Pictures of the British University were sent to the British Museum, the Smithsonian Institution, the Field Columbian Museum in Chicago and to a number of other institutions.

Wednesday from the Field Museum states that while the inscription on the stone cannot be translated, the figures were undoubtedly made by a tribe of Indians of the Maya, a tribe of Indians of Yucatan.

The stone was discovered by Maj. Burnham in the delta between the Yaque and Maya rivers, about one mile from the seacoast, and the little town of Otone, which weighs about two tons and the face upon which the inscriptions are engraved is about five feet by eight. It is believed that it is more than 500 years old.

An attempt is to be made to have it brought to Pasadena, but Mexico will probably not permit its removal.

RIBES PRACTURED.

Charles J. Thompson, a laborer, had fractured the three lower ribs on the right side, and is suffering from bodily bruises as a result of an accident at the Lincoln Avenue bridge, a point of construction on Oakland avenue.

He was working on a scaffolding, lost his footing, and fell twenty feet, landing on a pile of lumber. After treatment at the Emergency Hospital was removed to his home at Belmont.

GLEN AVENUE STORM DRAIN.

The Lincoln Avenue City and County Improvement Association will take immediate action to have Glen Monica avenue paved as a storm drain and to present to the Council a petition, which the association has been formulating for some time, asking that a storm drain district be formed in North Pasadena to handle the Glen Monica matter.

The proposed district will include approximately 1800 feet of street.

The estimated cost of paving Glen Monica with high curbs and constructing a ditch from its lower end to the Arroyo Seco is \$50,000. This would place an assessment of \$25 per acre, and it is felt that the cost of paving one or two lots will be very little. No objection has as yet developed to the proposal.

LESTER AVENUE SQUABBLE.

With both sides claiming the majority of frontage, the proposed widening of Lester Avenue in the Prospect Park district, yards wide, has created dispute before the City Council. The points at issue were enlarged upon for two hours by prominent citizens and a half dozen petitioners, pro and con, before the Council.

Prospect Park people are in favor of the widening, and representatives of Westmoreland tract are opposing it. J. C. Brainerd and J. H. Martin spent the night in the ground floor of a four-story house recovered by Prospect Park for the widening. W. L. Green and John Willis Baer were arrested in the opposition, pending trial, it will come before the Board of Alimony Committee, asked to have the action deferred one week for the purpose of further investigation.

ELKALIZERS FINISH.

The Board of Equalization has adjourned. The total reductions in the county's assessment list amount to about \$100,000, one of the largest cuts in the history of the city.

The Pasadena Hospital was finally

## WILMINGTON IS EXCITED BY ANTI-UNION BANNER.

THREATS OF VIOLENCE.

WILMINGTON, July 27.—Some excuse was occasioned here yesterday in the attempt of anti-consolidationists to place a banner across Canal street, near the Pacific Electric depot. President Brennan of the Board of Trustees, it is said, had employed Frank Dastarac, a San Pedro sign painter, to prepare the banner.

Dastarac came over yesterday with a written permission from Manager Percival of the Edison Electric Company to stretch the banner on the electric light poles.

This caused a storm of protest from the consolidators, who headed by Frank Gerland, City Street Superintendent, gathered and threatened violence if the attempt was made.

Given a reduction from \$61,100 to \$52,000, Mrs. F. E. Rowland, on behalf of the Children's training school, and was granted a reduction of \$2500 on the grounds that the institution is charitable purposes.

PACIFICA NEWS NOTES.

Word has been received that Dr. E. B. Hoag, in addition to being health inspector at the Berkeley schools, will also take a position on the faculty of the University of California.

The City Council is to pass an ordinance resultant from a charter amendment, which will make it compulsory for water and sewer pipes to be laid in every case before streets are paved.

Mrs. Jackson of Bradford street was fined \$10 by Justice McDonald for throwing sand in the eyes of a house owner to her neighbor, Charles Hansen.

The Society has dismissed its seven cases, known as the "Vestiges of ancient customs." This action involved 210 tenement houses which had been ordered for the trial.

William J. Tiers, Jr., has purchased a \$12,000 residence on the corner of California street and Grand avenue.

The local W.C.T.U. has adopted a resolution to give preference to a woman for services at the Police Station on an hourly wage basis. The resolution is to be presented to the Superior Court, and will be decided in October.

The funeral of Mrs. Maud Jacob-Winters, daughter of Mrs. L. M. Jacobs, who died at the home of her mother, No. 168 North Maricopa avenue, Monday morning, will be held at 10 o'clock this afternoon.

Mrs. Mary A. Riedesel, the woman heiress of the big Santa Anita Canon, who made the sensational run in tight to Wilson, has gone to the care of Dr. W. L. Wilson.

Manager C. A. Ferras of the La Casa Grande Hotel is arranging for improvements amounting to several thousand dollars to the structure preparatory to the winter season which will open on September 15.

Col. W. J. Hogan has presented two handsome silver cups as trophies for the pool and billiard tournaments that are in progress at the Pasadena.

The five patients at the Pasadena Hospital, who were injured in the electric car accident near Eastlake park last night, were reported last night to be in fair condition.

Bronco Jim Hall, a giant negro, figured in a bronco-busting contest in the vacant lot between Raymond and Broadway, just north of California street, yesterday. He rode a sorrel mare that has thrown a number of men. About 200 people witnessed the race.

A "Canadian social" was held last evening at the residence of Mrs. W. H. Wilcox, No. 31 North Pasadena avenue. It is planned to organize a Canadian club.

## POLICE CAPTAIN FOUND GUILTY.

### COMMISSION DECIDES MOST OF CHARGES ARE TRUE.

At that instant Messrs. Lincoln and Dastarac got up, on their way to Garfield, and were appealed to by Dastarac. In order to avoid trouble they took the banner and placed it safe keeping in the office of Lincoln.

Finally Mr. Percival came over to adjust the matter and were again appealed to by a storm of protest from the consolidators, who said that the consolidation banner which had been hanging for a month across Canal street, a block away.

Finally Mr. Percival ordered that the banner be taken down, as it was strung on his poles. The crowd then erected two poles near the railway, where the banner was placed. When Mr. Lincoln came to the office he found the back door open and the anti-consolidation banner had disappeared.

At 10 o'clock the society reported.

SUDDEN DEATH AT LORDSBURG.

Member of One of Oldest Spanish-American Families Dies from Wagon and Expires.

LORDSBURG, July 27.—D. Palomares, 88 years old, was a member of one of the oldest and best-known Spanish-American families of Southern California; died suddenly this afternoon, of heart failure.

He was loading wood on the Vejar ranch, assisted by J. S. Soto, and just after finishing the loading, climbed to the top of the wagon and started to drive away. He suddenly fell forward from the wagon.

Cord, for several months, has been relegated to patrol duty, and the Civil Service Commission wanted to know why. It was told that the captain had been negligent in his official duty, but the commission said he was not at fault and the captain remained.

Palomares, who had lived all his life in this community, leaves a widow and nine children. He was an uncle of Frank Gerland, City Engineer.

The funeral will be held at the Catholic church at 10 o'clock Thursday morning.

No beach like Coronado beach.

SOUTH PASADENA.

SOUTH PASADENA, July 27.—The Trustees are considering the question of passing an ordinance providing for penalty for the waste of water.

Currently property owners all over the city frequently pour water on the lawns so that the larger part of the water runs into the gutters, and in some instances the water is allowed to run to the curb.

Despairing of the Council giving any relief, the commission decided to pass an ordinance against Capt. McCullough.

The question is now "up" to the Council, whether to drop a good patrolman, or an officer against whom charges have been sustained, or to increase the compensation of the force for more than two years, the body would reinstate him as captain and give him the opportunity to prove his worthiness.

The squatters were represented before the Trustees by Attorney George W. Knox of Los Angeles. In presenting their petition, Knox referred to the lease granted the Salt Lake Railroad by the city of Long Beach, in 1895, of ninety-seven acres, which includes the claims of the squatters. Suits to quiet title are pending.
